

WAREWASHING ALUMINIUM DETERGENT

HYLINE HLA-40

HYLINE HLA-40

CUSTOMER BENEFITS

- Effective liquid detergent for aluminium washware
- Great cleaning power
- Effective starch removal
- Excellent grease and protein removal capacity
- Odour-free
- Free of NTA

DOSAGE / APPLICATION

Water hardness °dH	g/l
up to 7 (soft)	1.5 – 2.5
7 – 21 (medium – hard)	2.5 – 4.0

From 3°dH, we recommend installing a water softener; for water containing large amounts of minerals, it is advisable to install a demineralisation system.

- Designed for commercial use only
- Not suitable for manual dosing
- Adhere to dosage instructions
- For best results, we recommend using HOBART rinse aid HLU-3000

COMPOSITION / INGREDIENTS

Silicates, alkaline agents

PRODUCT SAFETY AND STORAGE INSTRUCTIONS

For hazard warnings and safety instructions, refer to the material safety data sheet. Always store in the original container. Protect against frost and heat. Protect against direct sunlight.

APPLICATIONS

- Designed for commercial dishwashers
- Suitable for all types of aluminium, stainless steel and plastic washware
- Ideal for the cleaning of kitchen utensils (containers, trays, saucepans, etc.)
- Suitable for use in soft and medium hard water areas
- Before cleaning anodised aluminium items, perform a test
