

WAREWASHING GLASS RINSE AID

HYLINE HLG-1000

HYLINE HLG-1000

CUSTOMER BENEFITS

- High-concentration, acidic, liquid rinse aid for glassware
- Glasses dry without staining
- Brilliant finish
- Excellent wetting of the washware
- Outstanding drip-off properties
- Free of NTA

DOSAGE / APPLICATION

0.1 to 0.4 g/l, depending on glass type and water quality.

From 3°dH, we recommend installing a water softener; for water containing large amounts of minerals, it is advisable to install a demineralisation system.

- Designed for commercial use only
- Not suitable for manual dosing
- Adhere to dosage instructions
- For brilliant cleaning results in conjunction with HOBART glassware cleaner HLG-10

COMPOSITION / INGREDIENTS

Non-ionic tensides, citric acid

PRODUCT SAFETY AND STORAGE INSTRUCTIONS

For hazard warnings and safety instructions, refer to the material safety data sheet.

Always store in original container. Protect against frost and heat. Protect against direct sunlight.

APPLICATIONS

- Designed for commercial glasswashers
- Suitable for all drinking glasses and glassware with décor
- Guarantees effective reduction of the surface tension of the rinse water and fast, spotless drying of the glassware
