

WAREWASHING UNIVERSAL DETERGENT

HYLINE HLU-31

CUSTOMER BENEFITS

- Highly effective, alkaline liquid detergent with active chlorine
- Great cleaning power
- Optimised limescale-binding formulation
- Effective starch removal
- Excellent grease removal capacity
- Outstanding bleaching effect
- Free of NTA

DOSAGE / APPLICATION

Water hardness °dH	g/l
7 – 21 (medium – hard)	2.0 – 4.0

From 3°dH, we recommend installing a water softener; for water containing large amounts of minerals, it is advisable to install a demineralisation system.

- Designed for commercial use only
- Not suitable for manual dosing
- Adhere to dosage instructions
- For best results, we recommend using HOBART rinse aid HLU-3000

COMPOSITION / INGREDIENTS

Phosphates, chlorine-based bleaching agent, alkaline detergents

PRODUCT SAFETY AND STORAGE INSTRUCTIONS

For hazard warnings and safety instructions, refer to the material safety data sheet. Always store in original container. Protect against frost and heat. Protect against direct sunlight.

APPLICATIONS

- Designed for commercial dishwashers
- Highly effective for the removal of dried food scraps, residue of tea and coffee, and other colorants
- Suitable for all types of crockery, glassware, stainless steel utensils and cutlery
- Suitable for use in hard water areas
- Not suitable for aluminium and other light alloys
